Facilities, Equipment & Asset Management

MaintainPad

Manage a lot of buildings, facilities, assets & staff.. Helps you do everything from single system saving time, effort and money.

Complete CMMS

MaintainPad is a complete maintenance system with a competitive price structure.

Compliance checks

A powerful compliance checks system helping to comply with building facilities regulations such as fire & safety checks.

Asset management

This is an asset management system. Know where your assets are, and in what state.

Features

✓ Report-a-Repair. Online repair request. Stop disruptive telephone calls.

✓ Smart Work orders, with tendering to tradesman. No more calling around to get quotes and availability.

✓ Workforce and team management. Allocate jobs & collect updates from their mobile apps in real-time

✓ Digital checking system with pre-installed sector specific checks to keep your facilities compliant with building regulations.

Enhanced Features

1 Tenants
Tenants report a problem attached with images or video via the app

2 Property Manager
Property manager assess the urgency and tenders the problem to contractors

3 Contractors
Contractors reply back with time and estimated cost of fixing the problem

4 Landlord
Landlord decides which contractor suits him the best

✔ Digital inspection reports using a simple app. No need to remind staff or fill in paper work.

✔ Notify all relevant people when repairs are scheduled, when they will be done and who will do them.

✔ Stop losing keys with our Keys Management app. Know who has the keys and when they'll be returned
