

# B2B Wholesale Ecommerce

JustSell **B2B**

**A complete B2B wholesale Ecommerce platform** with customer ordering app, sales rep app, fully integrated EPoS and much more.

## Built for B2B & Wholesale

A user-friendly e-commerce platform designed specifically for wholesale businesses to sell online globally.

## Industry Specific Ecommerce

Compatible with various wholesale sectors, including building merchants, food and drink, consumer goods, and more.

## 0% commission on sales

Unlike Shopify and other B2B platforms that charge commissions on every sale, we don't 'tax' your growth.

## Features

- ✓ Integrates with physical stores to update stock, prices, and offers in real-time, with EPoS functionality also available.
- ✓ Integrated online payments for both the webshop and the app.
- ✓ Sell on multiple channels, including eBay, Amazon, and Etsy, all from within the platform.
- ✓ Operations management apps for delivery, staff management, and compliance are also available.

“RADiUS, a large Irish B2B building supply store was particularly interested in the personal pricing and credit accounts feature. We integrated JustSell with their wholesale EPoS system.”

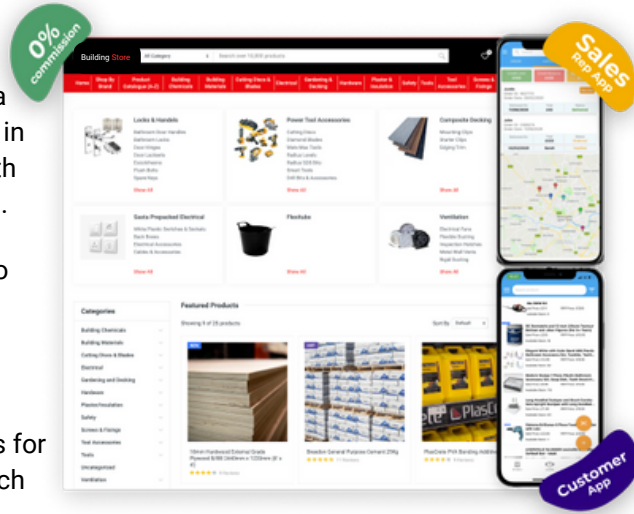

## Enhanced Features

✓ **Listing app** is included. Take a picture, add a description and in one-click, the item is listed with updated stock, prices & offers.

✓ **Manage Shipping** allows you to compare different shipping methods and costs within the platform.

✓ **E-marketing tools.** Built-in tools for email campaigns, SEO and much more.

✓ **Customer apps & online portal** allows customers to order direct from your own branded app and portal where they can easily access their account history.
