JUSTSELL IS PART OF
UPTIVITY

B2C

B2C/D2C Ecommerce

JustSell

A complete retail and D2C eCommerce platform featuring a branded customer ordering app for your store and much more.

One-stop webshop

A user-friendly Ecommerce application designed for both service and product-based businesses to sell their offerings.

Branded ordering app

Customise your webshop and consumer app with your own branding, choosing from sector-based themes.

No commission on your sales

Unlike Shopify and other online platforms that charge commissions on every sale. Unlike others, we don't **'tax' your growth.**

Features

- ✓ Integrates with physical stores to update stock, prices, and offers in real-time, with EPoS functionality also available.
- ✓ Integrated online payments for both the webshop and the app.
- ✓ Sell on multiple channels, including eBay, Amazon, and Etsy, all from within the platform.
- ✓ Operations management apps for delivery, staff management, and compliance are also available.

B2C

Newcastle-based business Noor Couture adopted a JustSell webstore and business-branded apps, allowing them to sell directly to local and international customers without incurring commission.

Enhanced Features

- ✓ **The listing app** is included, allowing you to take a picture, add a description, and with one click, list the item with updated stock, prices, and offers.
- ✓ **JustSell** allows you to manage shipping by comparing different shipping methods and costs directly within the platform.
- ✓ **JustSell** includes built-in marketing tools, featuring e-marketing capabilities for email campaigns, SEO, and more.
- ✓ We offer customisation to meet all your needs at a much lower cost than Shopify.

BOOK A DEMO

B2B

B2B Wholesale Ecommerce

JustSell **B2B**

A complete B2B wholesale Ecommerce platform with customer ordering app, sales rep app, fully integrated EPoS and much more.

Built for B2B & Wholesale

A user-friendly e-commerce platform designed specifically for wholesale businesses to sell online globally.

Industry Specific Ecommerce

Compatible with various wholesale sectors, including building merchants, food and drink, consumer goods, and more.

0% commission on sales

Unlike Shopify and other B2B platforms that charge commissions on every sale, we don't 'tax' your growth.

Features

- ✓ Integrates with physical stores to update stock, prices, and offers in real-time, with EPoS functionality also available.
- ✓ Integrated online payments for both the webshop and the app.
- ✓ Sell on multiple channels, including eBay, Amazon, and Etsy, all from within the platform.
- ✓ Operations management apps for delivery, staff management, and compliance are also available.

B2B

“RADiUS, a large Irish B2B building supply store was particularly interested in the personal pricing and credit accounts feature. We integrated JustSell with their wholesale EPoS system.”

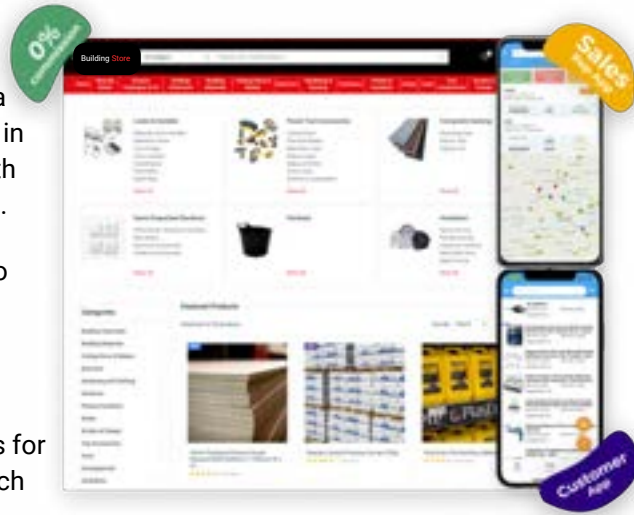

Enhanced Features

✓ **Listing app** is included. Take a picture, add a description and in one-click, the item is listed with updated stock, prices & offers.

✓ **Manage Shipping** allows you to compare different shipping methods and costs within the platform.

✓ **E-marketing tools.** Built-in tools for email campaigns, SEO and much more.

✓ **Customer apps & online portal** allows customers to order direct from your own branded app and portal where they can easily access their account history.

Food Ordering app

ClickToGo

A complete food ordering system with your restaurant's branded app and much more.

Direct customer orders

Let your customers order directly from your website, bypassing third-party platforms for a more seamless and personalised experience.

0% Commission on sales

Unlike Uber Eats and other food ordering platforms that take a commission on every sale, we don't 'tax' your growth—allowing you to keep more of your profits.

Branded ordering app

With your own branded app, you can showcase your restaurant's identity, ensuring that every order reflects your brand.

Features

- ✓ Works as an EPOS alternative to food orders and in-store orders
- ✓ Freedom to choose different payment methods for your customers
- ✓ Comply with food hygiene standards with digital checklists and task reminders.
- ✓ Operations management apps for delivery, staff management, and compliance are also available.

“ Spice Master uses ClickToGo to let customers order food online directly from them, bypassing third-party apps, while also implementing the ordering system within the restaurant. ”

Enhanced Features

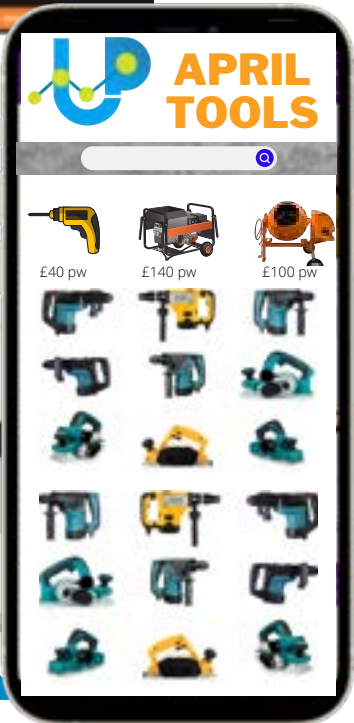

- ✓ Track drivers in real-time with live maps and automatically share their location and ETA with customers for a smoother, more transparent delivery experience.
- ✓ **ClickToGo** includes built-in marketing tools, featuring e-marketing capabilities for email campaigns, SEO, and more.
- ✓ We provide customisation to meet all your needs at a much lower cost –something that platforms like Uber Eats simply can't offer.
- ✓ Track your employees' attendance using Attendance Rota, allowing for simple clock-ins and outs.
