

Quality & Compliance App

Checkki

Helps all staff on all sites to maintain quality consistently throughout your business. Easily and quickly implement quality controls, surveys, risk assessments, and more.

Stay compliant

Digitalised checks help you maintain standards and be compliant no matter what industry you're in.

Customise every check

Define what staff should check for every aspect of the business. e.g. manufacturing, assets and inspection rounds.

Instant alerts

Specify question responses that trigger instant alerts, eliminating the need to wait for a complaint to be raised.

Features

- ✓ Automatically generated reports are instantly emailed and shared.
- ✓ Reports highlight any required further actions..
- ✓ Embed a YouTube video in the checks to guide staff on how to perform them.
- ✓ After completing the checks, a signature requirement can be mandated.

Jacden Group in the West Indies, use Checkki to ensure cleaning and maintenance jobs are done with precision and consistency. With over a hundred staff, Checkki removes uncertainty about quality standards.

Enhanced Features

Automate the allocation and scheduling of inspections and checks to the appropriate staff and teams.

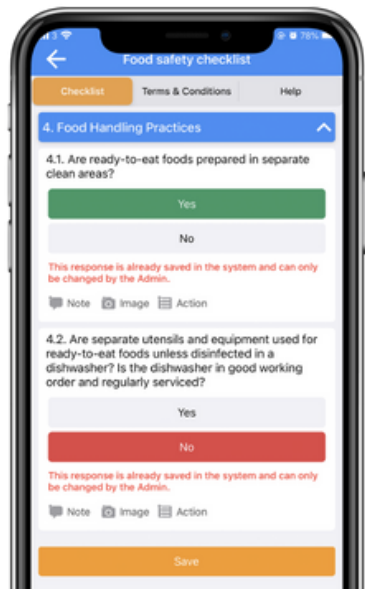

Conduct stock checks throughout the manufacturing process while maintaining a complete audit trail.

Customised visual reports provide insights into faults, pass/fail rates, violations, and compliance status.

An intuitive, user-friendly mobile app that works in offline mode, ensuring functionality even without connectivity.
